

PRIMARY 2 MATHEMATICS SCHEME OF WORK FOR TERM II

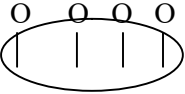

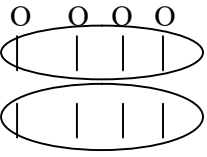

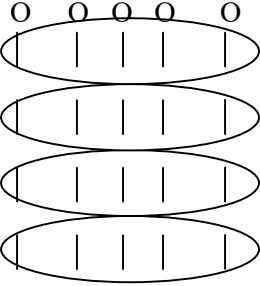

W K	P D	THEME	SUB – TOPIC	CONTENT	COMPETENCES	MTDS	ACTIVITY	LIFE SKILLS	T/ L AIDS	R E F
1	1	OUR ENVIRONMENT	COMMON ANIMALS	Writing number figures in words. 3 digits write zero (0) in the middle Examples  One hundred two	<ul style="list-style-type: none"> - Write the number names with zero in the middle. - Give the place values correctly 	<ul style="list-style-type: none"> - Guided discovery - Illustration - Demonstration 	<ul style="list-style-type: none"> - Reading the number names - Writing number names - Giving their place values 	<ul style="list-style-type: none"> - Critical thinking - Self awareness - Effective communication 	<ul style="list-style-type: none"> - Chalk board - Bundles - Sticks 	
	2			Writing 3 digit number in words with 0 at the end Example  Four hundred eighty	<ul style="list-style-type: none"> - Identify the place values - Naming the place values - Writing in words using the place values 	<ul style="list-style-type: none"> - Guided discovery - Illustration - Demonstration 	<ul style="list-style-type: none"> - Reading a 3 digit number with 0 at end. - Writing in words using the place values 	<ul style="list-style-type: none"> - Critical thinking - Self awareness - Effective communication 	<ul style="list-style-type: none"> - Chalk board illustration - Bundles - Sticks 	

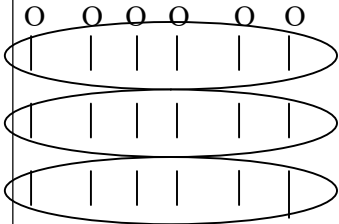

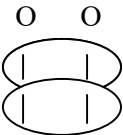

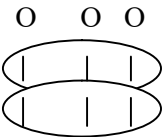

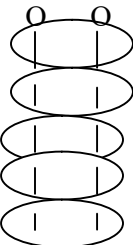

3			<p>Writing 3 digit numbers without zero in words</p> <p>Example</p> <div><div>139</div><div>→ Ones → Tens → Hundreds</div></div> <p>One hundred thirty nine</p>	<ul style="list-style-type: none">- Read 3 digit number without zero.- Write 3 digit number in words- Name the place value	-	<ul style="list-style-type: none">- Reading 3 digit numbers without zero and write in words	-	-					
4			<p>Writing number names in figures</p> <p>Examples</p> <p>Four hundred two</p> <table><tr><td>Four hundred</td><td>two</td></tr><tr><td>400</td><td>2</td></tr></table>	Four hundred	two	400	2	<ul style="list-style-type: none">- Identify the place values- Arranging- Writing the number names in figures	-	<ul style="list-style-type: none">- Writing number names in figures	<ul style="list-style-type: none">- Critical thinking- Effective communication	<ul style="list-style-type: none">- Flash cards- Illustration on chalk board	
Four hundred	two												
400	2												
5			<p>Addition of numbers with re – grouping</p> <p>16 + 7 =</p> <div><div>T</div><div>O</div><div>16</div><div>+07</div><div>23</div></div> <p>SW. 0000000 +0000000000000000</p>	<ul style="list-style-type: none">- Adds with re – grouping	-	<ul style="list-style-type: none">- Adding numbers with re – grouping	<ul style="list-style-type: none">- Self awareness	-					
2	1		<p>Adding of two digit numbers to a two digit number with re – grouping</p> <p>Example</p>	<ul style="list-style-type: none">- Add a two digit number with re – grouping	-	<ul style="list-style-type: none">- Adding of two digit number to a two digit number	-	<ul style="list-style-type: none">- Counters- Flash cards- Counters					

				<div>12 + 18 =</div> <div><table><tr><td>T</td><td>O</td></tr><tr><td>1</td><td>2</td></tr><tr><td>+1</td><td>8</td></tr><tr><td>3</td><td>2</td></tr></table></div> <div>SW. 00 +00000000</div>	T	O	1	2	+1	8	3	2					<div>rs</div> <div>- Flash cards</div>	
T	O																	
1	2																	
+1	8																	
3	2																	
2			<div>Addition of word problems</div> <div>Example</div> <div>Okechi had 28 pencils. Gift gave him 4 more pencils. How many pencils does he have now?</div> <div><table><tr><td>T</td><td>O</td></tr><tr><td>2</td><td>8 pencils</td></tr><tr><td>+0</td><td>4 pencils</td></tr><tr><td>3</td><td>0</td></tr></table></div> <div>SW. 00000000 +0000</div> <div>Okechi has 32 pencils now</div>	T	O	2	8 pencils	+0	4 pencils	3	0	<div>- Reads word problems correctly</div> <div>- Writes, arranges and adds correctly</div>	<div>- Chalk and talk</div> <div>- Guided discovery</div> <div>- Guided discussion</div>	<div>- Reading word problem</div> <div>- Writing and adding word problems</div> <div>- Arranging numbers vertically</div>	<div>- Effective communication</div> <div>- Critical thinking</div> <div>- Creative thinking</div>	<div>- Pencils</div> <div>- Books</div> <div>- Chalk board</div> <div>- Counters</div>		
T	O																	
2	8 pencils																	
+0	4 pencils																	
3	0																	
3			<div>Subtract with re – grouping</div> <div>Example</div> <div>23 – 7</div> <div><table><tr><td>T</td><td>O</td></tr><tr><td>2</td><td>1 3</td></tr><tr><td>- 0</td><td>7</td></tr><tr><td>1</td><td>6</td></tr></table></div> <div>SW. 0000000000000000</div> <div>Try this</div>	T	O	2	1 3	- 0	7	1	6	<div>- Arranges numbers correctly.</div> <div>- Subtracts correctly with borrowing (re – grouping)</div>	<div>-</div>	<div>- Arranging numbers</div> <div>- Subtracting with borrowing correctly</div> <div>-</div>	<div>- Critical thinking</div> <div>- Sharing</div> <div>- Creative thinking</div> <div>- Self awareness</div> <div>s</div>	<div>-</div>		
T	O																	
2	1 3																	
- 0	7																	
1	6																	

				1. $31 - 2$ 2. $43 - 6$ 3. $52 - 7$ 4. $93 - 4$						
	4			Subtracting 2 – digit numbers Examples $37 - 18$ $\begin{array}{r} \text{T} \quad \text{O} \\ 2\cancel{3} \quad 7 \\ - 1 \quad 8 \\ \hline 1 \quad 9 \end{array}$ SW. 000000000000000000	- Re – grouping and subtract correctly - Arranging 2 digit numbers vertically	-	- Re – grouping and subtracting correctly	-	-	
	5			More subtraction with re – grouping Example $22 - 7$ $\begin{array}{r} \text{T} \quad \text{O} \\ 2\cancel{2} \quad 12 \\ - 0 \quad 7 \\ \hline 1 \quad 5 \end{array}$ SW. 000000000000000000 Exercise $26 - 7$ $42 - 18$ $96 - 48$	- Arranges digits to be subtracted correctly	- Guided discovery - Observation - Illustration	- Arranging digits to be subtracted	-	-	

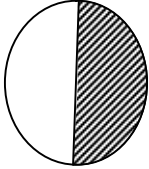

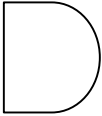

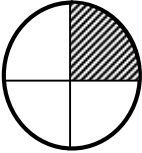

3	1		<p>Subtraction of word problem</p> <p>Example</p> <p>A boy had 44 sweets. He gave away 8 sweets . How many sweets remained?</p> <p>44 – 8</p> <div><div><div>T</div><div>34</div><div>+ 0</div><div>3</div></div><div><div>O</div><div>14 sweets</div><div>8 sweets</div><div>6</div></div></div> <p>SW. 0000000000000000</p>	<ul style="list-style-type: none">- Reads words problems correctly- Writes, arranges vertically- Re – groups correctly	-	-	-	-	
	2		<p>Division</p> <p>Division by 2</p> <p>Example</p> <p>6 ÷ 2</p> <div><div><div>0</div><div>0</div><div>6 ÷ 2 = 3</div></div><div><div><div> </div><div> </div></div><div>6 – 2 = 4</div></div><div><div><div> </div><div> </div></div><div>4 – 2 = 2</div></div><div><div><div> </div><div> </div></div><div>2 – 2 = 0</div></div></div>	<ul style="list-style-type: none">- Makes the division sign- Identifies the division sign	-	<ul style="list-style-type: none">- Making the division sign- Identifying the division sign	-	-	
	3		<p>Division by 3</p> <p>Examples</p> <p>6 ÷ 3 = 2</p> <div><div><div>O</div><div>O</div><div>O</div></div><div><div><div> </div><div> </div><div> </div></div><div><div><div> </div><div> </div><div> </div></div></div><p>Share 12 mangoes equally amongst 3 children</p></div></div>	<ul style="list-style-type: none">- Divides correctly- Counts the number of times subtracted	<ul style="list-style-type: none">- Guided discovery- Question and answer	<ul style="list-style-type: none">- Dividing the given numbers carefully and correctly	<ul style="list-style-type: none">- Effective communication- Self awareness	<ul style="list-style-type: none">- Bottle tops- Stones- Books- Counters	

								- Critical thinking		
	4			Division by 4 Example $4 \div 4 = 1$  Share 8 books equally among 4 boys  Each boy will get 2 books	-	-	-	-	-	
	5			Division by 5 Example $20 \div 5 = 4$  Share 15 stools equally among 5 women	-	-	-	-	-	
4	1			Division by six (6) Examples $18 \div 6 = 3$	- Divides as repeated subtraction	- Guided discovery	- Dividing the given number carefully	- Effective communication - Critical	- Stones - Bottles tops - Counte	

				 <p>Share 12 balls equally among 6 teams</p>				thinking	rs	
	2			<p>Long division</p> <div style="display: flex; align-items: center;"> <div style="margin-right: 20px;"> $\begin{array}{r} 2 \\ 2 \overline{)4} \\ \underline{2 \times 2 = 4} \\ 0 \end{array}$ </div> <div>  </div> </div> <div style="display: flex; align-items: center; margin-top: 20px;"> <div style="margin-right: 20px;"> $\begin{array}{r} 2 \\ 3 \overline{)6} \\ \underline{2 \times 3 = 6} \\ 0 \end{array}$ </div> <div>  </div> </div>	<ul style="list-style-type: none"> - Identifies the long division - Works out the number 	<ul style="list-style-type: none"> - Guided discovery - Guided discussion 	<ul style="list-style-type: none"> - Identifying the long division - Working out the number 	<ul style="list-style-type: none"> - Self awareness - Problem solving 	<ul style="list-style-type: none"> - Counters - Stones - Bottle tops 	
	3			<p>Division (word problems)</p> <p>Examples</p> <p>1. Share 10 shirts among 2 men</p> <p>$10 \div 2 = 5$</p>  <p>Each will get 5 shirts</p>	<ul style="list-style-type: none"> - Reads the word problems - Works out the word problems 	-	<ul style="list-style-type: none"> - Reading the word problems - Working out the word problems. 	-	-	

				2.Share 4 books among 2 girls						
	4	Things we make	Materials used and their sources	Measuring liquids using non - standard units comparing using “less” or “more”  Container A hold ____ water than container B. Containers B holds ____ water than containers C	- Uses less or more to compare - Carries out practical work	- Guided Discovery - Demonstration - Explanation	Using less or more to compare	- Buckets - Cups (1 litre) - Jerry cans (5 litre)	- Creative thinking - Effective communication	
	5			Comparing (practical) Example How many 1 litre cups fill a 5 litre jerry can. 1 litre jerry can = 1 5 litre jerry can = 5 cups How many $\frac{1}{2}$ litre cups fill a 2 litre jerry can?	- Finds out the number of cups - Filling the jerry can	- Group work - Illustration	- Filling the jerry can using cups	- Jerry cans 5 litre	-	
5	1			Fractions (practical) A fraction is a part of a whole Cuts or shows these fractions $\frac{1}{2}$, $\frac{1}{4}$, $\frac{3}{4}$, 1	- Defines a fraction - Names the fraction	-	- Designing a fraction - Naming the fraction	- A chart showing wholes parts and their names	- Orange - Apples - Water melon	

	2			<p>Naming the shaded and un shaded fractions</p> <p>Examples</p> <div> Shaded $\frac{1}{2}$</div> <div><div>Un shaded</div><div></div>$\frac{1}{2}$</div> <div> Shaded $\frac{1}{3}$</div> <div><div>un Shaded</div><div></div>$\frac{2}{3}$</div> <div> _____</div> <p></p>	<ul style="list-style-type: none">- Names the shaded and un shaded fractions correctly	<ul style="list-style-type: none">- Guided discovery- Illustration- Demonstration	<ul style="list-style-type: none">- Naming the shaded and un shaded fractions	<ul style="list-style-type: none">- Chalk board- Cards- Chat showing fraction	<ul style="list-style-type: none">- Sharing- Critical thinking- Effective communication- Self awareness	
	3			<p>Shading fractions</p> <p>Examples</p> <div>$\frac{1}{2}$ </div> <div>$\frac{1}{3}$ </div> <div>$\frac{1}{4}$ </div> <p>Shade</p> <div>$\frac{2}{4}$ </div> <p></p>	<ul style="list-style-type: none">- Shades the given fraction- Draws fractions- Writes the shaded fractions		<ul style="list-style-type: none">- Shading the given fraction- Drawing fractions- Writing the fractions		<ul style="list-style-type: none">- Logical thinking	

				Writing fractions in words. $\frac{1}{2}$ a half, $\frac{1}{4}$ a quarter			Writing fractions in words			
	4			Comparing fractions (practical lesson) Procedure Get an apple, cut it into equal parts    A half is bigger than a quarter	<ul style="list-style-type: none"> - Compares the fraction why bigger or smaller - Carries out practical's 	-	<ul style="list-style-type: none"> - Comparing fraction using bigger or smaller 	<ul style="list-style-type: none"> - Apples - Oranges - Cut outs - Water melon 		
	5			Comparing fractions Arranging fractions from small to big $\frac{1}{6}, \frac{1}{10}, \frac{1}{2}, \frac{1}{5}, \frac{1}{4}$ $\frac{1}{10}, \frac{1}{6}, \frac{1}{5}, \frac{1}{4}, \frac{1}{2}$ Arranging from big to small	<ul style="list-style-type: none"> - Compares fraction using bigger or smaller 	<ul style="list-style-type: none"> - Guided discovery - Demonstration - Guided discovery 	<ul style="list-style-type: none"> - Comparing fractions using bigger or smaller 	<ul style="list-style-type: none"> - Flash cards - Apples - Oranges - Water melon 	<ul style="list-style-type: none"> - Critical thinking - Effective communication 	

				$\frac{1}{8}, \frac{1}{3}, \frac{1}{7}, \frac{1}{9}, \frac{1}{11}$ $\frac{1}{3}, \frac{1}{7}, \frac{1}{8}, \frac{1}{9}, \frac{1}{11}$					<ul style="list-style-type: none"> - Logical thinkin g - Creativ e thinkin g 	
6	1			Addition of fractions (practical) Examples  $\frac{1}{2} + \frac{1}{2} = \frac{1}{2} = 1$  $\frac{1}{4} + \frac{1}{4} + \frac{1}{4} + \frac{1}{4} = \frac{4}{4} = 1$	<ul style="list-style-type: none"> - Adds fractions practically - Shows addition in written - Adds carefully 	<ul style="list-style-type: none"> - Group work - Demonstrati on - Guided discovery 	<ul style="list-style-type: none"> - Adding fraction practically - Showing addition in written - Adding 	<ul style="list-style-type: none"> - Cards - Charts - Apples - Oranges - Cut outs - Water melon 	-	
	2			Addition of fractions Example $\frac{1}{2} + \frac{1}{2} = \frac{1+1}{2} = \frac{2}{2} = 1$	<ul style="list-style-type: none"> - Names numerators and denominators - Adds fractions correctly 	-	<ul style="list-style-type: none"> - Naming the numerator s and the denominat ors 	-	-	-
	3			Subtraction of fractions. Examples	<ul style="list-style-type: none"> - Tells the denomination are not subtracted 	<ul style="list-style-type: none"> - Guided discovery 	<ul style="list-style-type: none"> - Subtractin g numerator 	<ul style="list-style-type: none"> - Work cards 	<ul style="list-style-type: none"> - Logical thinkin g 	-

				$\frac{3}{3} - \frac{2}{3} = \frac{3-2}{3} = \frac{1}{3}$ $\frac{5}{7} - \frac{1}{7} = \frac{5-1}{7} = \frac{4}{7}$	- Subtracts only the numerators		s		- Self awareness - Critical thinking	
	4			Fill in the missing numbers Examples $\boxed{2} + 3 = 5$ $\boxed{3} + 1 = 4$ $\boxed{2} + 7 = 9$	- Finds the missing number correctly - Shows working clearly	-	- Finding the missing numbers correctly - Showing the working	-	-	-
	5			More addition Examples $2 + \boxed{4} = 6$ $2 + \boxed{6} = 8$	- Finds the missing number. - Fill in the missing number	-	- Finding and filling in the missing numbers	-	-	-
				Solving word problems in fractions Jane ate $\frac{2}{4}$ of the cake. Joy $\frac{1}{4}$ ate of the cake. What fraction did they eat altogether	- Adds word problems involving word fractions	-	- Adding word problems using fractions	-	-	-

7	1	Transport in our community	Means of transport	Subtraction Example $\begin{array}{r} 4 - \boxed{1} = 3 \\ 00 \end{array}$ $\begin{array}{r} 5 - 3 = 2 \\ 00 \end{array}$ $\begin{array}{r} 36 - = 14 \\ \\ \\ \\ \end{array}$	<ul style="list-style-type: none"> - Finds the missing number by subtracting - Tells the missing number 	<ul style="list-style-type: none"> - Chalk and talk - Guided discovery - Guided discovery 	<ul style="list-style-type: none"> - Finding the missing numbers - Filling in the missing numbers 	<ul style="list-style-type: none"> - Work cards - Flash cards - Counters - Pencils 	<ul style="list-style-type: none"> - Creative thinking - Critical thinking - Logical thinking 	-
	2			More on subtraction Example $\begin{array}{r} \boxed{5} - 3 = 2 \\ 000 \end{array}$ $\begin{array}{r} \boxed{32} - 12 = 20 \end{array}$ $\begin{array}{r} 1 2 \\ +2 0 \\ \hline 3 2 \end{array}$	-	-	-	-	-	-
	3			Multiplication Example a) $2 \times \boxed{2} = 4$ (11) (11) b) $4 \times \boxed{3} = 12$ (111) (111) (111) c) $5 \times \boxed{} = 15$	<ul style="list-style-type: none"> - Finds the missing numbers by multiplying 	<ul style="list-style-type: none"> - Guided discovery 	<ul style="list-style-type: none"> - Finding the missing numbers by multiplying 	<ul style="list-style-type: none"> - Work cards - Flash 	-	-

4	Accidents and safety	Road safety	Division Examples $12 \div \boxed{3} = 4$  However for $\boxed{20} \div 5 = 4$ 	<ul style="list-style-type: none">- Fills in the missing numbers- Finds by grouping	<ul style="list-style-type: none">- Guided discovery- observation	<ul style="list-style-type: none">- filling in the missing number- finding the missing number by grouping	<ul style="list-style-type: none">- work cards- flash cards	<ul style="list-style-type: none">- creative thinking- critical thinking- effective	-										
			I think of a number multiply by 3 the answer is 18. What is the number	<ul style="list-style-type: none">- Solves the word problem	-	<ul style="list-style-type: none">- Solving word problem	-	<ul style="list-style-type: none">- communication	-										
5			Picture graph Example Four pupils were given sweets as shown below <table border="1"><tr><td></td><td></td><td></td><td></td><td></td></tr><tr><td>Luswata</td><td>Tamale</td><td>Ethel</td><td>Gift</td><td>Camila</td></tr></table> Questions 1.How many sweets does camila have? 2. Who has more sweets? 3. Who has less sweets?						Luswata	Tamale	Ethel	Gift	Camila	<ul style="list-style-type: none">- Studies the picture graph correctly- Interprets the information on the graph	<ul style="list-style-type: none">- Observation- Guided discovery	<ul style="list-style-type: none">- Studying the picture graph correctly- Interpretin g the informatio n on the graph	<ul style="list-style-type: none">- A chart showing the chart picto – graph	-	-
																			
Luswata	Tamale	Ethel	Gift	Camila															

8	1		<p>Pictographs</p> <p>Examples Study the graph below</p>  <p>Questions</p> <ol style="list-style-type: none">1. How many trees did P.I B plant?2. Who planted the least number of trees.3. How many trees did they plant altogether?	<ul style="list-style-type: none">- Reads the given information carefully- Shows the information on the venn diagram	<ul style="list-style-type: none">- Guided discovery- Question and answers	<ul style="list-style-type: none">- Reading the given information- Showing the information on a picture graph	<ul style="list-style-type: none">- A chart showing a picto – graph	<ul style="list-style-type: none">- Creativ e thinkin g- Proble m solving- Self awaren ess	-	
	2		<p>Bar graph Example Study the bar graph and answer the questions</p>  <p>Questions</p> <ol style="list-style-type: none">1. How many boxes does Thon have?2. How many boxes does Ghai have?	<ul style="list-style-type: none">- Interprets the information correctly	-	-	-	<ul style="list-style-type: none">- A chart showing a bar graph	-	-

				3. Who has the highest no of boxes						
	3			Bar graph Example Study the bar graph and answer the questions  <p>Number of Phones</p> <p>Douglas Racheal Keren Sylvia Riziki</p> Questions 1. How many phones does Keren have? 2. Who has the highest number of phones	<ul style="list-style-type: none"> - Interprets the information carefully - Draws a bar graph - Reads, writes and interprets the graph 	<ul style="list-style-type: none"> - Guided discovery - Observation - Illustration - 	<ul style="list-style-type: none"> - Interpreting the information carefully - Drawing a bar graph - Answering questions 	<ul style="list-style-type: none"> - A chat showing a bar graph 	<ul style="list-style-type: none"> - Problem solving - Creative thinking - Logical thinking - Self awareness 	-
	4			Commutative property in multiplication $8 \times 1 = 1 \times 8$ $8 \times 0 = 0 \times 8$ $8 \times 2 = 2 \times 8$ $8 \times 5 = 5 \times 8$ $8 \times 10 = 10 \times 8$	<ul style="list-style-type: none"> - Explanation for the meaning of commutative property - Writes the commutations property of the given table 	-	<ul style="list-style-type: none"> - Flash cards for communication property multiplication 	-	-	-
				Commutative property of 9 $9 \times 1 = 1 \times 9$ $9 \times 0 = 0 \times 9$ $9 \times 2 = 2 \times 9$ $9 \times 5 = 5 \times 9$ $9 \times 10 = 10 \times 9$	<ul style="list-style-type: none"> - Exchanges the numbers 	-	-	-	-	-
